Ellis Event Power Services

Your temporary power specialists

We are the Southwest's number one event power specialist providing Generator Hire with a service tailored specifically for events. Ellis Event Power Services have the equipment, skills and experience to provide temporary electricity to any venue of any size. We've supplied weddings, small and large food and music festivals, conferences and functions of all kinds. From individual bookings to large events we take a pride in being able to meet your needs.

365 days a year, 24 hour service

Cornwall 01209 822 333 Devon 01392 401 234

Ellis Electrical Engineering Group

Ellis Event Power Services forms part of the Ellis Group. Alongside the Generator hire business Ellis also has Ellis Electrical and Ellis Fire & Security.

Having the electrical division alongside our generator hire business we are able to offer the complete package where required from hiring, delivering through to installing with our own electrical team. We are an NICEIC approved electrical contractor so our clients can trust our work is being carried out to the relevant British standards.

Ellis Electrical

Here at Ellis Electrical we are dedicated to professionalism, quality and value. We provide electrical installation, planned and reactive electrical maintenance and testing throughout Cornwall and Devon to the highest standard with electricians on call 24 hours a day, 7 days a week.

We're the region's leading electrical services company working from our offices in Redruth and Exeter.

Led by our managing director Grant Ellis who established the company over 20 years ago, we have moved from strength to strength to become a leading independent electrical contractor and generator hire specialist.

What our customers are saying...

"Many thanks for all you did 'above and beyond the call of duty'. The Festival was a great success and knowing we can rely on contractors like yourselves to help smooth out the inevitable glitches and last minute changes allows me to focus on what I have to do, so thank you again. All the best and, yes, we'll remember you next year." **Food Festival**

"I just wanted to say a massive thank you for being so understanding and helpful when I was so stressed! We had a wonderful wedding day and I'm grateful for all of your team's help." Emma C

Generators from 20-1250kVA

We offer 2 different ranges in our fleet the Ultra Silent and the Silenced. The Ultra Silenced is ideal for weddings, festivals, residential areas or anywhere that noise may become an issue. With noise levels starting at 55dba you won't even know they are running. The Silenced range starting at 65dba is designed around site based applications. With our modern fleet we are able to quickly synchronize generators together.

Synchronizing allows options of:

Load sharing | Load on demand | Duty and backup

20kVA Ultra Silent

kVA Rating continuous:	20
Sound level @ 7m:	55db (A)
Fuel tank capacity:	92 Litres
Consumption @ 75% load:	3.5 ltr / hr
Running time:	26 hours

kVA Rating continuous:	60
Sound level @ 7m:	67db (A)
Fuel tank capacity:	185 Litres
Consumption @ 75% load:	10 Ltr / hr
Running time:	18 hours
Dimensions:	2280 x 1100 x 1670mm
Wet weight:	1755kg
Sockets & Buss bar:	1 x 63a 5 pin 415v 2 x 32a 3 pin 240v ** 110v optional**

100kVA Silenced (can be synchronized)

kVA Rating continuous:	100
Sound level @ 7m:	61db (A)
Fuel tank capacity:	250 Litres
Consumption @ 75% load:	15.7 Ltr / hr
Running time:	15 hours
Dimensions:	3050 x 1240 x 1800mm
Wet weight:	2720kg
Sockets & Buss Bar:	1 x 125a 5 pin 415v 1 x 63a 3 pin 415v 1 x 32a 5 pin 415v 3 x 32a 3 pin 240v

150kVA Silenced (can be synchronized)

kVA Rating continuous:	150
Sound level @ 7m:	68db (A)
Fuel tank capacity:	185 Litres
Consumption @ 75% load:	23.2 Ltr / hr
Running time:	17 hours
Dimensions:	3350 x 1100 x 2010mm
Wet weight:	2375kg
Sockets & Buss Bar:	1 x 63a 5 pin 415v 2 x 32a 3 pin 240v

200kVA Silenced (can be synchronized)

kVA Rating continuous:	200
Sound level @ 7m:	68db (A)
Fuel tank capacity:	270 Litres
Consumption @ 75% load:	29 Ltr / hr
Running time:	13 hours
Dimensions:	3830 x 1200 x 2000mm
Wet weight:	2950kg
Sockets & Buss bar:	Power-loc Buss bar

Bunded Diesel Tanks

Ellis stock a range of bunded diesel tanks from 910 litres to 4500 litres. This means that for any long term hire bulk fuel deliveries can be arranged. This reduces refuelling costs and with a large fuel supply you can run for days or even weeks between fill ups. We also have remote fuel level viewing technology ensuring continuity of operation. We also provide 12v pumps so you can even fill diggers, dumpers or other plant on site.

Cable, Distribution and Transformers

We hold all the relevant equipment to supply and distribute your electricity to the desired locations around your event site. From distribution units, cables and extension leads, sockets, switches, transformers and lighting Ellis Event Power can supply and/or install the equipment to make sure your event has the exact electrical specification you require. Power all types of lighting and all event equipment including lighting, stages for live music, PA systems, microphones, speakers, marquee bars, discos, mobile kitchens and catering facilities and more.

Our distribution boards and cables come in different shapes, lengths and configurations. Please see our cable and distribution rental catalogue.

Lighting Towers

Ellis have a fleet of the latest, most up-to-date Lighting Towers, which are Network rail approved. The Lighting Towers are ready to be deployed to any location to provide professional illumination for road, rail and public events.

Our silent running 59dB, 1000W metal halide lamps deliver 85 hours running time from a 140Ltr tank. They provide a fast-automated mast deployment with 360-degree rotation for maximum visibility. Also, our new range of LED Lighting towers offer a fantastic saving on fuel and an instant bright crisp light. These offer 160 hours running. YES! Nearly a whole week running 24/7 on a single tank these are ideal for festivals and hard to reach locations. We can also offer our 5x240w LED tower light. This still offering all the same benefits as the 4 head version but with a 360° spread of clean light.

1000W Metal Halide 9m Tower light

kVA Rating continuous:	7
Sound level @ 7m:	60db (A)
Fuel tank capacity:	140 Litres
Consumption lights on:	1.5 Ltr / hr
Running time:	85 hours

Remote Fuel Management

Here at Ellis we can carry out your fuel management; this means you never have to worry about running out of fuel. We can remotely monitor and maintain your fuel levels on a day to day basis ensuring your event or site doesn't have any power down time.

Also with our 24hr emergency call out service we can arrange fuel deliveries even at 2am Boxing Day. A peace of mind not many can offer.

365 Days, 24 Hour Service

We are committed to working as your partner through unexpected eventualities or short falls to your business power needs. We can respond rapidly to equipment breakdowns/replacement or fuel callouts in the southwest. We already support national companies in Devon and Cornwall with satisfaction every time.

Ellis Event Power have the equipment, skills and experience to provide electricity to any size of event.
